Registrations can only be satisfied if the form is completed in its entirety, which is valid for adhesion to the General Conditions of Participation. Conditions or provisions attached to the application will not be accepted. Applications for a particular location will be taken into account to the extent of availability, but may not constitute preconditions for participation. No guarantee is given as to the participation of competitors. Registration alone does not constitute an admission by the organizer. Any registration is considered to have been made only after receipt of it by the organizer. It has binding force until admission or refusal.

#### Item 2. ADMISSION:

There is no legal entitlement to admission. Exhibitors who do not comply with payment obligations towards the company organizing the show or who have contravened these provisions may be refused admission. In case of overbooking, the organizer reserves the right of confirmation. Sending an admission document is only valid for the exhibitor named in the Selection letter. The admission of exhibitors is confirmed in writing and constitutes the conclusion of an exhibition contract between the organizer and the exhibitor. The organizer has the authority to withdraw admission if it was granted on the basis of erroneous premises or information or if the prior admission conditions can no longer be applied subsequently.

#### Item 3. PROMOTION:

Exhibitors are prohibited from placing stickers, posters or signs on the site, other than on their own stand. In this context, exhibitor representatives are prohibited from distributing brochures and invitations or other, in aisles or near entrances and exits. Exhibitors wishing to undertake promotional activities involving the demonstration of games, organized competitions or other, will be invited to ask for the permission of the organizers.

#### Item 4. LOCATION ASSIGNMENT:

The organizer establishes the plan of the event and assigns the locations taking into account the sectorization of the exhibition and as and when admissions. The organizer takes into account as much as possible the wishes of the exhibitors and the nature of the exhibited products. He reserves the right to modify whenever he deems it useful the size and layout of the surfaces subscribed by the exhibitor.

#### Item 5. PAYMENT TERMS:

Any advertising or promotion of companies not mentioned in the admission document is prohibited on the stand. Requests for the inclusion of a co-exhibitor should be sent to the organizer in writing. The co-exhibitor is liable to the organizer for the registration fees indicated in the Registration Form. In the case of national trade fairs, the value added tax in force shall be added to the sum due. In all cases, the party renting the stand is responsible for the registration fee of the co-exhibitor. The same conditions are applied to the co-exhibitor as to the main exhibitor. Co-exhibitors may also be included in the catalog if they accept the conditions for inclusion attached to it, if the relevant fees are paid and if the information to be published is provided on time. The organizer may authorize large collective stands provided that they can be incorporated into an appropriate subdivision of the show. All provisions are applied to each exhibitor. After this period, the participation fees in their integrity, the registration fees, as well as the costs actually incurred are due. Restructuring by the organizer of unused spaces in order to maintain the overall visual impression does not free the exhibitor from its financial commitments. In case that an exhibitor decides not to make use of the space areas allocated to him and the organizer would allocate this space to a third party (occupation whose purpose is not to restructure), the exhibitor must pay 25% of the participation fee as well as 100% of the registration fees. In case of the defection of a co-exhibitor, the full amount of the registration fees remains vested in the organizer.

We strongly recommend supervising small or particularly attractive items at all times and removing them from the stand every evening. The stand must never remain empty during exhibition hours. Exhibitors should always ensure that they are fully covered by their insurance policy, both in terms of possible damage caused to third parties and their own protection.
